Our Mission: The Nephrology Nursing Certification Commission (NNCC) exists to establish credentialing mechanisms to promote patient safety and to improve the quality of care provided to nephrology patients.

Our Philosophy: The NNCC supports the philosophy that there should be a diversity of examinations that will effectively provide the opportunity for certification at various levels of education, experience, and areas of practice within nephrology nursing.

Our Purpose: The NNCC is committed to the advancement of professional nursing practice through the recognition of nephrology nurses and individuals caring for patients with kidney disease who display a predetermined level of knowledge and skill. The purpose of the NNCC is to promote the protection of patients with acute and chronic kidney disease requiring nursing care through the development, implementation, coordination, and evaluation of all aspects of certification and recertification processes.

The designated certification credentials offered by the NNCC are Certified Nephrology Nurse – Nurse Practitioner (CNN-NP), Certified Nephrology Nurse (CNN), Certified Dialysis Nurse (CDN), Certified Clinical Hemodialysis Technician (CCHT), Certified Clinical Hemodialysis Technician – Advanced (CCHT-A), and the Certified Dialysis – Licensed Practical/Vocational Nurse (CD-LPN or CD-LVN).

The NNCC Award for Nephrology Nursing Certification Advocacy

This award was developed to be able to publicly recognize organizations that advocate for or promote all levels of nephrology nursing certification. Organizations that provide patient care to persons with kidney disease and employ certified nurses and technicians are eligible to apply for this award. Organizations include but are not limited to free-standing outpatient dialysis units, hospitals, and ambulatory care clinics. A unit or division of a larger organization is eligible to apply. The NNCC believes that such advocacy ultimately leads to quality patient care.

The award recipient will be selected by the NNCC in the spring of each year. Arrangements will be made with the recipient organization for the NNCC President or member of the Commission to personally present the Award for Nephrology Nursing Certification Advocacy in a ceremony held at the recipient organization. Suggestions include holding the award ceremony during Nurses' Week in May, Nephrology Nurses Week in September, or near National Certification Day in March.

The award consists of a plaque and a \$2000.00 prize. The winning organization will be highlighted on the NNCC website, Social Media sites, and at every professional meeting where the NNCC exhibits throughout the year.
