Introduction

To qualify for recertification, a Certified Nephrology Nurse- Nurse Practitioner (CNN-NP) must meet the eligibility requirements set forth by the NNCC. To avoid a late fee the appropriate recertification application (contained in this booklet) must be postmarked by the last day of the month in which the certificant's certification expires.

Certification is effective for five (5) years from the first day of the month in which the certificant passed the examination. Certification must be renewed every five (5) years. The CNN-NP is a national credential that may be used in all professional activities and correspondence.

The following two options are available to meet the recertification requirements:

Continuing education and clinical experience:

This booklet contains the forms and instructions to recertify by continuing education and clinical experience. To determine eligibility to recertify as a CNN-NP, please refer to the eligibility requirements on page 9 of this booklet.

Recertification by examination:

A recertification by examination application can be found on page 17 of this booklet. When submitting the examination application for recertification, all requirements for recertification must be met except for #3, continuing education. Testing must be completed before the certification expiration date to avoid a lapse in certification status.

Verification of Recertification

If approved for recertification, individuals will receive a wallet card with expiration date within sixty (60) days of the date the National Office receives a recertification application. Replacement wallet cards and/or wall certificates are available for a fee. Verification of valid certification credentials can be made through the NNCC Certified Directory at www.nncc-exam.org.

Current Address

It is the certified nurse's responsibility to notify the NNCC National Office of any changes in name, address or e-mail address.

Inactive Status

A certified nurse may request inactive status if he/she is unable to meet the requirements for recertification. To apply for inactive status, the certificant must complete the application for inactive status (page 21 of this booklet) and submit a letter describing the reason. If approved, inactive status will be granted for one five (5) year period. During this time, the CNN-NP credential may not be used. In order to recertify after the five (5) year inactive period, the criteria for regular recertification must be met during the inactive status period and a recertification application must be submitted. Under no circumstance will the inactive period be extended beyond five years.

Emeritus Status

Nurses who have maintained an active credential, who are over 50 years of age, and who have retired from active practice may apply for emeritus status. To apply for the retired credential the certificant must complete the application for Emeritus Status (page 25 of this booklet) and submit a one-time fee. If approved, the certificant may use the emeritus credential at nephrology functions to acknowledge a previous active credential and the accomplishments it signifies. If the certificant chooses to return to active practice and wishes to again hold the active credential, he/she must meet current eligibility criteria and certify by examination.

Fee Schedule

Recertification application fees are non-refundable. Periodically fees are reevaluated and adjustments may be made. Fees can only be adjusted by a vote of the NNCC Commission. To avoid a late fee, the recertification application must be postmarked by the certification expiration date. For an additional (late) fee a certificant may submit a recertification application after the certification expiration date, provided all eligibility criteria are met during the certification period. Applications are processed in order of receipt. It may take up to eight (8) weeks from date of receipt of an application to be reviewed. Expedited applications will be processed within 14 business days from date of receipt with an additional expedited fee included.
